Plowman Bros Limited - York.

Based just north of York, Plowman Bros is a design/engineering/fabrication company specializing in engineered metalwork and manufacturing a range of high quality products to supply various industry sectors. We produce bespoke products to fit our customers' needs ranging from Commercial vehicle plant and equipment, semi-trailers for transport and waste processing equipment as well as cultivation equipment to name a few. We are a versatile company, consistently welcoming and responding to new challenges, designing efficient, practical, user friendly products that fit a design brief.

Plowman Brothers has an extensive range of modern engineering machinery on site including, CNC Plasma profiling, Press brake, Lathe and Milling equipment. As well as pulse synergic welders and painting facilities. We work with aluminium, mild, high strength, wear resistant and stainless steel on a daily basis to fabricate components for the products and services we offer.

CAD Design Engineer.

Working with a number of in-house experts you will be designing and developing and processing in-house products and components, or interpreting client's drawings into suitable manufacturing drawings then overseeing the project through the fabrication process.

You would initially assist others with larger projects to build up your knowledge of the company processes. This would lead to individual project management once established. You would be involved in all aspects of manufacturing environment, from the concept right through to the delivery of a finished product to the customer, then beyond this to after sales care, giving valuable insight into the performance of a product leading to further development. The role also requires time to be spent on the shop floor over seeing work offering good variety from day to day.

Good time management/people skills and experience using CAD are required, preferably from the Autodesk family but if an aptitude for CAD can be shown in other programs previous experience of AutoCAD is not essential.

All ability levels will be considered, from time served to college leaver as we are looking for candidates with a genuine passion for engineering, along with the motivation and drive to succeed within our industry. Experience within the commercial vehicle or agricultural industry is preferred but not essential.

We offer a competitive salary and excellent opportunities for progression within the company for the right candidate.

Hours of work 8am – 5pm Monday to Friday - 40 hours per week

Permanent contract.

If you have any questions prior to submitting your application please get in touch and visit our website for details relating to the products we manufacture.
